

Livetap® Drill & Toolkit

(Specialist toolset for carrying out Livetap under pressure drilling)

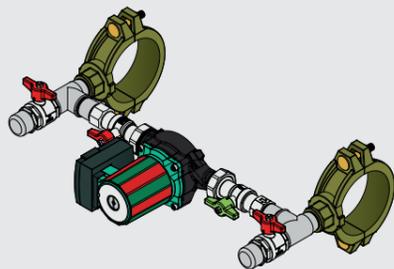

What it Does

The Livetap drill and toolkit is a specialist toolset that allows you to carry out under pressure drilling along with a versatile range of specially developed Livetap fittings.

There are three toolkits tailored to each set of specific Livetap fittings whether its small bore pipework arrangements or large sprinkler mains.

Which Toolkit Do You Need?

Fitting Outlet	Toolkit
15 & 25mm	Small (LT-TKSS)
15, 25 & 50mm	Large (LT-TKLS)
15, 25, 50, & 80mm	XLarge (LT-TKLEXT)

Zonecheck® Live

(The simple solution to retro-fit a Zonecheck to an existing flow-switch without draining down)

What it Does

Zonecheck Live is a sustainable solution for sprinkler system flow-switch testing, that can cut costs and save time when carrying out mandatory tests.

Note, the Zonecheck Live Special Application is used when there is restricted access around an existing flow-switch.

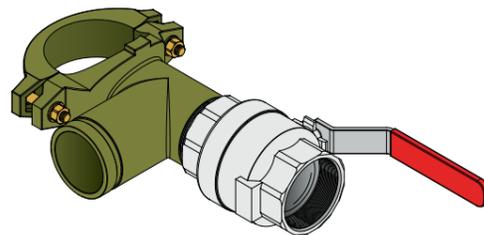

Product Details

Product Code	Pipe size & Outlet
LT-ZC65	65x25mm
LT-ZC80	80x25mm
LT-ZC100	100x25mm
LT-ZC150	150x25mm
LT-ZCSA65	65x25mm
LT-ZCSA80	80x25mm
LT-ZCSA100	100x25mm
LT-ZCSA150	150x25mm

(This product is also available as a pre-wired unit.)

Approvals

LPCB, FM, VdS, UL

No Drain T

(Allows the 'live' modification and installation of additional sprinkler heads)

What it Does

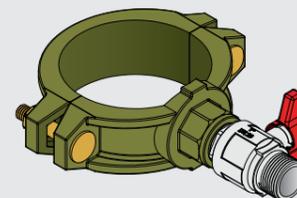

No Drain T has been developed to allow new sprinkler heads to be added to an existing system without the need to drain down. Up to nine sprinkler heads can be added when using a 50mm No Drain T connection and an unlimited amount can be installed using our new 80mm No Drain T (within the code standards and requirements).

Product Details

Product Code	Pipe size & Outlet
LT-NDT50-25	50x25mm
LT-NDT50-32	50x32mm
LT-NDT80	80x50mm
LT-NDT100	100x50mm
LT-NDT150	150x50mm
LT-NDT100-80	100x80mm

Approvals

LPCB, FM, VdS, UL

Kwik Drain

(Allows easy draining of sprinkler systems, where pipe work could be trapping excess water)

What it Does

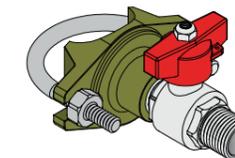

Kwik Drain has been designed for alternate/dry system pipe work when it is unable to fully drain due to damaged pipe work or insufficient drain valves fitted. Can also be used to clear out sludge from pipework, that could be hindering a systems performance.

Product Details

Product Code	Pipe size & Outlet
LT-KD50	50x25mm
LT-KD65	65x25mm
LT-KD80	80x25mm
LT-KD100	100x25mm
LT-KD150	150x25mm
LT-KD200	200x25mm
LT-KD80-50	80x50mm
LT-KD100-50	100x50mm
LT-KD150-50	150x50mm

Approvals

LPCB, FM, VdS, UL

Kwik Vent

(Add a system venting point where it is most beneficial or modify/alter small bore pipework)

What it Does

Add a system vent in a matter of minutes without draining down. Can also be used on conjunction with freezing equipment. With Kwik Vent you can get 100% reassurance that the freezing was successful, by means of a pressure gauge attached the fitting. With your mind at rest about whether the freezing has worked you can take advantage of all the benefits that come with it, for instance no drain down is required which saves both time and money.
